"The Oxford Handbook of Qualitative Research presents a comprehensive and student-friendly overview of the field of qualitative research and is intended for students of all levels, faculty, and researchers across the social sciences. It provides strong focus on methods instruction with coverage of theoretical approaches, analysis, writing, evaluation, and the politics of research"--

This ethnography looks at North American Sikh young women who have started wearing turbans as a symbol of the empowerment their faith guarantees. This "reciprocal ethnography" highlights both the voices of the 13 women interviewed and the collaborative research effort of a professor and her undergraduate student.

Silence, Feminism, Power: Reflections at the Edges of Sound interrogates the often-unexamined assumption that silence is oppressive, to consider the multiple possibilities silence enables. The equation between voice and power informs feminist theory and activism, creating an imperative that the oppressed must 'come to voice.' Alternately, this volume explores the diverse and complex ways that differently situated groups and individuals deploy power through silence. Authors engage questions like: What forms of resistance and healing do silence make possible? What alliances might be enabled by learning to read silences? Under what conditions is it productive to move between voice and silence? The book is thematically organized to explore: Intersectionality, Privilege, and Alliances; Academia and Knowledge Production; Community, Family, and Intimacy; Memory, Healing, and Power. Essays feature diverse feminist reflections on the nuanced relationship between silence and voice to foreground the creative, healing, meditative, generative and resistive power our silences engender.

Gender in Applied Communication Contexts explores the intersection and integration of feminist theory as applied to four important areas: organizational communication, health communication, family communication, and instructional communication. This collection of readings links theoretical insights and contributions to pragmatic ways of improving the lives of women and men in a variety of professional and personal situations. Gender in Applied Communication Contexts is recommended for upper-division and graduate-level courses in gender and communication, feminist theory, organizational communication, health communication, instructional communication, and applied communication. This anthology is also recommended as a research resource for scholars in Women's Studies, Family Studies, and Business and Management.

The Third Edition of the Handbook of Interpersonal Communication includes eight new chapters and eleven revised from the second edition. Following an introductory chapter, the volume is organized into four parts covering perspectives on inquiry in interpersonal communication, fundamental units of interpersonal communication, processes and functions, and interpersonal contexts. Features include: · Each chapter reviews and updates research in its respective area · Part II examines methodological issues in the field · Includes articles by top scholars in the field of Interpersonal Communication

Engaging Crystallization in Qualitative Research, the first "how to" book to both explain and demonstrate crystallization methodology, offers a framework for blending grounded theory and other social scientific analyses with creative representations of data, such as narratives, poetry,

and film. Author Laura L. Ellingson explores relevant epistemological questions that arise when crossing methodological boundaries, provides detailed steps for design and planning, offers guidelines for improving both social scientific and creative/artistic writing, and suggests strategies for targeting publication outlets for multigenre representations.

A lively, warm tale of a week in the life of an extended southern black family. *Voices of the South*. Advertising.

This volume provides the theoretical, methodological, and praxis-driven issues in research on interpretive, critical, and cultural approaches to health communication. It includes an international collection of contributors, and highlights non-traditional (non-Western) perspectives on health communication.

This annotated bibliography constitutes a thoroughly revised and more easily readable study of Behn's publications, of those edited or translated by her, of publications that included her works, and of writings ascribed to her, along with an annotated bibliography of over 1600 works about her from 1671 to 2001, with an unannotated update covering 2002. The augmented primary bibliography describes all known editions and issues of her works to 1702, and adds a catalogue of editions to 2002, including on-line sources. The secondary bibliography adds close to 1000 items published since 1984 to the original 600 of the first edition along with about 175 more from 1671 to 1984, with attention to materials not in English. New appendices include a list of dedicatees, actors, recent productions (with reviews), and provenances. This volume will be invaluable for book dealers, collectors and librarians, as well as students and scholars of Aphra Behn and of Restoration literature.

Everybody has a secret. Some are more dangerous than others. For Georgina Wilcox, only child of the notorious traitor known as "The Fox", there are too many secrets to count. However, after her interference results in great tragedy, she resolves to never help another... until she meets Adam Markham. Lord Adam Markham is captured by The Fox.

Imprisoned, Adam loses everything he holds dear. As his days in captivity grow, he finds himself fascinated by the young maid, Georgina, who cares for him. When the carefully crafted lies she's built between them begin to crumble, Georgina realizes she will do anything to prove her love and loyalty to Adam—even it means at the expense of her own life.

A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

Inside Interviewing highlights the fluctuating and diverse moral worlds put into place during interview research when gender, race, culture and other subject positions are brought narratively to the foreground. It explores the 'facts', thoughts, feelings and perspectives of respondents and how this impacts on the research process.

Lawyers have souls, and God is pursuing us. In His Chambers is a ninety-one-day devotional reading experience for lawyers. The potential influence of an attorney is great. This book aims to prod lawyers forward to a competent life of helpful influence. The Word of God forms the foundation of each reading, which reflects upon the life of a lawyer, both personal and professional. With stories from life in the law, In His Chambers will probe heart, mind, motive, and hope. This book invites the lawyer to ponder work, life, legacy, and the adventure of knowing God through Jesus Christ.

Gender on Campus is the first book to combine solid analyses of the broad range of gender issues for women in college with realistic approaches to heighten awareness and alleviate problems. Written for students, the book first clarifies the concept of feminism and then examines gender dynamics in a variety of settings and contexts—from the classroom to the sports field and from language to social life. Sharon Gmelch probes sexism, racism, and homophobia on campus and surveys the special issues facing diverse women students. The book also addresses issues relating to body image and sexuality. Its final chapters analyze the role gender continues to play after college—in the media, workplace, and politics. After a thorough discussion of a topic, each chapter concludes with possibilities for action ("What You Can Do") as well as a selected bibliography of books, videos, and organizations that students can consult. Gender on Campus is an invaluable resource for students, parents, and administrators, as well as an excellent text for women's studies courses.

Organizations, Communication, and Health focuses on theories and constructs of organizational communication and their relationship to health. The goal of the volume is to offer a current picture of organizational and organizing processes and practices related to health. Research in the area of health communication has expanded in recent years, and this research has advanced understandings of campaigns, patient/provider interactions, and social support. However, a gap in the area of health, organizations, and organizing processes emerged, a niche this volume fills. It does so by having chapters identify an organizational theory or organizing process and how aspects of that theory relate to health. Chapters discuss how to marry theory to practice and the other factors (e.g., organizational structure, role, occupation, industry, or environment) that need to be considered in the process of utilizing the theory in organizations. This volume, aimed at advanced undergraduate and graduate students studying health communication, as well as health professionals, provides useful theory and practice related to organizations and health, and issues a call for further theorizing on the practice of health communication in organizations.

In 1987 and 1988, Dr. Diana Russell journeyed from the United States to the land of her birth to learn about the special role of women in the struggle against apartheid in South Africa. The fruit of her research is this extraordinary book: the first hand accounts, in their own words, of 24 courageous risk-taking women activists (portraits included). These are not only world-famous leaders like Winnie Mandela and Albertina Sisulu (although their stories are included in the book) but ordinary women who were trade unionists, members of radical organizations, student activists -- black and white, African, Indian and Coloured, young and old. Lives of Courage: Women for a New South Africa compellingly dramatizes the little-known role of women who fought

apartheid and its cruel apparatus -- banning, banishment, house arrest, imprisonment, and torture -- even as they strove to keep together their beleaguered families. With rare candor, they speak of the price they and families paid for their activism, of the difficulties of being a woman in a racist and sexist society, of the terrors they had endured, and of the dreams they nourished of a new South Africa. The fighting spirit of these women, their courage and conviction in the face of a modern state's vindictiveness, shines from every page of this inspiring book.

Liquid Metal brings together 'seminal' essays that have opened up the study of science fiction to serious critical interrogation. Eight distinct sections cover such topics as the cyborg in science fiction; the science fiction city; time travel and the primal scene; science fiction fandom; and the 1950s invasion narratives. Important writings by Susan Sontag, Vivian Sobchack, Steve Neale, J.P. Telotte, Peter Biskind and Constance Penley are included.

Women's Lives examines the full range and diversity of women's lives. Composed of 61 readings, this reader is divided into 11 sections: Perspectives on Women's Lives Girlhood & Adolescence Economica and Work Women and the Body Violence Sexuality Mothering and the Family Resistance & Social Change Women, Culture, & Creativity Migration & Globalization Spirituality & Religion

This distinctive collection explores the use of narratives in the social construction of wellness and illness. Narratives, Health, and Healing emphasizes what the process of narrating accomplishes--how it serves in the health communication process where people define themselves and present their social and relational identities. Organized into four parts, the chapters included here examine health narratives in interpersonal relationships, organizations, and public fora. The editors provide an extensive introduction to weave together the various threads in the volume, highlight the approach and contribution of each chapter, and bring to the forefront the increasingly important role of narrative in health communication. This volume offers important insights on the role of narrative in communicating about health, and it will be of great interest to scholars and graduate students in health communication, health psychology, and public health. It is also relevant to medical, nursing, and allied health readers.

This cutting-edge two-volume set with contributions by distinguished and internationally recognized scholars provides a comprehensive picture of contemporary issues in the field of women's sexuality, emphasizing women's diversity and international perspectives. * Vignettes and real-life stories to illustrate concerns, questions, findings, research, and concepts * In-depth coverage of a wide spectrum of sexuality topics among women, including sexual desire and satisfaction; sexuality concerns in diverse countries; pornography; lesbian, bisexual, and transgender women; trauma, rape, and intimate partner violence; and mental health and therapy * Contributions from 63 distinguished scholars who are experts in their fields * Extensive bibliography with each chapter

Postmodern Interviewing offers readers an exploration of the postmodern interview, a conversation with diverse purposes in which the communicative format is constructed as much within the interview conversation as it stems from predesignated research interests. It provides cutting-edge discussions of emerging horizons, featuring reflexivity, poetics, and power, along with

discussions of new ways of gathering experiential knowledge. Employing concepts from anthropology, family studies, history, and sociology, the contributors present the ambitious new directions in which the interview has gone, such as: How the interview process is refracted through the lens of language, knowledge, culture, and difference How the dividing line between fact and fiction is blurred to promote richer understanding How standardized representation has given way to representational invention This volume is comprised of chapters from the Handbook of Interview Research (Gubrium and Holstein, SAGE, 2001). The companion volume, Inside Interviewing (SAGE, 2003), is also comprised of chapters from the Handbook.

A different approach to contemporary ethnography, embracing the idea that alternative genres may be used to express cultural experience.

A thought-provoking look at how silence is embedded in our language, society, and institutions. Sexual harassment is explored as an example.

This feminist exploration of mothers, mothering, and motherhood combines evaluations of empirical and theoretical work with personal narratives by mothers or caregivers. While the authors' analyses yield suggestions for new approaches to motherhood, the narratives vividly demonstrate the relevance of these issues to women's lives. The result is a nuanced picture of the complex realities mothers face, as well as their struggles, joys, and hopes for their children. In the book's first part, "Social Constructions of Motherhood," Chase and Rogers argue that dominant western views of motherhood have been and continue to be detrimental to most mothers and children. In the second part, "Maternal Bodies," the authors attend to the ways that American society and women themselves have regarded the physical aspects of motherhood. Mothers' bodies, the authors contend, have long been objects of cultural and political struggle. The final part, "Mothering in Everyday Life," suggests that only an understanding of the daily realities of mothering will lead to social and political changes promoting the welfare of mothers and children.

Health and illness are storied experiences that necessarily entail personal, cultural, and political complexities. For all of us, communicating about health and illness requires a continuous negotiation of these complexities and a delicate balance between what we learn about the biology of disease from providers and our own very personal, subjective experiences of being ill. *Storied Health and Illness* brings together dozens of noteworthy scholars, both established and emerging, in a provocative collection that embraces narrative ways of knowing to think about, analyze, and reconsider our own and others' health beliefs, behaviors, and communication. Comprehensive content reflects the editors' substantial research in integrative health, narrative care, and innovative ways of improving well-being and quality of life in personal relationships, healthcare, the workplace, and community settings. Unique narrative approaches to the study of health communication include:

- 14 chapters written by 22 contributors who use engaging stories from their own research or personal experience to introduce and ground foundational communication concepts in healthcare, health promotion, community support, organizational wellness, and other health-related sites of interest.
- Compelling stories of individuals living with the inherent challenges and unexpected opportunities of mental illness, addiction, aging, cancer, dialysis, sexual harassment, miscarriage, obesity, alopecia, breastfeeding, health threats to immigrant workers, developmental differences, and youth gun violence.
- 36 Health Communication in Action (HCIA) sidebars that highlight applied research of innovative health communication scholars in their own words and then prompt readers to think more deeply about their own perspectives and experiences.
- Theorizing Practice boxes that encourage readers to reflect on stories that describe significant experiences in their own and others' lives as they consider assumptions and enlarge their viewpoints in previously unimagined ways.

In this unforgettable, award-winning book, New York Times bestselling author Margaret Truman profiles twelve remarkable women, some famous, others little known. They range from a United States senator to a Native American to a first lady. Most wore bonnets and long skirts; few had college degrees; and only a handful stepped into a voting booth. But these women spoke the same language as their sisters today. Truman's look into the past pays tribute to the courage of American women from the Revolution to the present.

Candace Cameron Bure has grown up before our eyes and we've watched as she's balanced life in Hollywood with her faith for many years. But that all reached new heights when she was given the opportunity to join the cast of Dancing With the Stars. Being on the show was one of her dreams come true; and with that dream came the opportunity to display her Christian faith in front of millions of people, through an intense season of stretching beyond her limits, and to run the race God gave her with joy and perseverance. Join Candace as she reflects on the self-discovery that came through leaping out of her comfort zone. Go behind the scenes and experience the highs and lows, the roadblocks, and the personal victories. Hear straight from her heart on tough lessons learned about grace, rejection, perfectionism, disappointment, accountability, dealing with criticism, and more. Through God's strength, and with the help of endless support from her family and friends, see how Candace stayed true to herself and publicly lived out her faith in Christ all the way to the finale. How do you stand with conviction in your world? Where does your courage come from when faced with challenges? How do you live out your faith on a daily basis despite opposition? Your stage probably isn't in Hollywood and the challenges you are facing may not be on live television, but they are no less real. Come along with Candace as she shares how she found the courage to stand with conviction on one of the largest platforms of her life.
