Working from the original Hebrew texts and by focusing on the literal meaning without applying personal interpretation or religious influence the author reveals a world far removed from religious dogma. Here we find evidence of beings from other planets, clear references to alien craft and devices built using technologies not known at the time. The author has not set out to destroy people's faith, and does not profess to be an atheist or a ufologist. But he has set out in this book to question many of our certainties backed up by centuries of doctrine, and to open our minds to a world that many will find both fascinating but also at times challenging.

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

The Handbook of UFO Religions, edited by scholar of new religions Benjamin E. Zeller, offers the most expansive and detailed study of the persistent, popular, and global phenomenon of religious engagements with ideas about extraterrestrial life.

The Holy Spirit is often portrayed as something "weird." But the Bible makes it clear that the Spirit is not something. He is someone—a Person who has promised to never leave your side. John Bevere invites you into a personal discovery of the most ignored and misunderstood Person in the Church: the Holy Spirit.

This is a standard work of reference for the study of the religious history of western Christianity in the later middle ages which, since its original publication in French in 1981, has come to be regarded as one of the great contributions to medieval studies of recent times.

Hagiographical texts and reports of the processes of canonisation - a mode of investigation into saints' lives and their miracles implemented by the popes from the end of the twelfth century - are here used for the first time as major source materials. The book illuminates the main features of the medieval religious mind, and highlights the popes' attempts to gain firmer control over the wide variety of expressions of faith towards the saints in order to promote a higher pattern of devotion and moral behaviour among Christians.

In 'Israel's History and the History of Israel' one of the world's foremost experts on antiquity addresses the birth of Israel and its historic reality. Many stories have been told of the founding of ancient Israel, all rely on the biblical story in its narrative scheme, despite its historic unreliability. Drawing on the literary and archaeological record, this book completely rewrites the history of Israel. The study traces the textual material to the times of its creation, reconstructs the evolution of political and religious ideologies, and firmly inserts the history of Israel into its ancient-oriental context.

Tale of a husband's obsession with his wife's disastrous affair.

Carlo M. Martini was cardinal of the largest diocese in the world, a scholar, and one of the most renowned men of the church. Georg Sporschill has worked in prisons and lived with drug-addicted street children in Romania and Moldavia. The two Jesuits met in Jerusalem and became friends: two worlds, one faith—and a passionate search for ways in which the message of Jesus of Nazareth can still be effective for tomorrow. In a series of conversations they ask what faith can mean for life, what future young people have in the church, and what must be changed so that Christianity itself has a future. The questions from young people are the catalyst for deep thought. Is the future only dark? Where are the rays of light on the horizon? What would Jesus say today?

A novel by a writer who understands the female psyche, and observes the male with a wary eye. This novel, set in the '70s and the present day, is about teen obsession, rites of passage and one girl's infatuation with David Cassidy. It's about love in many forms, but first love in particular, how it shapes us and imprints us

Che cosa ci rivelano gli studi di genetica sul racconto della creazione? Come si possono facilmente spiegare alcuni episodi di miracoli e guarigioni narrati nella Bibbia? Quali scenari si aprono se si scopre, da una traduzione attenta e letterale, che la "gloria" di Dio era probabilmente una vera e propria arma fisica? Perché ci sono somiglianze così sorprendenti tra i comportamenti di Yahweh e quelli degli dei dell'era classica descritti nell'Iliade e nell'Odissea? Che cosa emerge da uno studio attento del presunto patto di alleanza tra Dio e gli uomini? E quale luce getta tutto questo sui Vangeli? Questo libro è il nuovo sconvolgente capitolo dell'opera di rilettura che Mauro Biglino sta compiendo da anni sulle Sacre Scritture. Un cammino iniziato con le traduzioni della Bibbia compiute dallo stesso Biglino per le Edizioni San Paolo e che sta suscitando l'interesse di un numero sempre crescente di persone in Italia e all'estero. "Queste pagine proseguono il racconto di ciò che ancora non era stato evidenziato o, peggio, di ciò che è stato da sempre volutamente dimenticato – o variamente interpretato dagli esegeti-teologi – allo scopo di celarne i potenziali effetti dirompenti. Sono il frutto di un approccio multidisciplinare che spazia dalla genetica alla filologia classica, avvalendosi dell'apporto di diversi studiosi, e utilizzano una chiave di lettura che rivela una nuova visione di quella che potrebbe essere stata la nostra storia. Una storia che, come appare ormai chiaro a un numero sempre crescente di ricercatori, andrà totalmente riscritta. Troppe sono le testimonianze del passato che urgono e spingono in questa direzione; troppe le domande e le incongruenze archeologiche, storiche, documentali che rimangono prive di risposte e di spiegazioni coerenti. Ho cercato di leggere la Bibbia con la convinzione che chi l'ha scritta intendeva raccontare ciò che aveva visto di persona o sentito narrare, con quella meraviglia e quello stupore che sono inevitabili di fronte ai contenuti che emergono. Meraviglia e stupore che hanno colpito anche me in questa ricerca che mi auguro appassionante e soprattutto a misura del lettore che si avvicini per la prima volta all'argomento."

Essays on destructive influences of the modern environment on human behavior.

In *From Metaphysics to Midrash*, Shaul Magid explores the exegetical tradition of Isaac Luria and his followers within the historical context in 16th-century Safed, a unique community that brought practitioners of Judaism, Christianity, and Islam into close contact with one another. Luria's scripture became a theater in which kabbalists redrew boundaries of difference in areas of ethnicity, gender, and the human relation to the divine. Magid investigates how cultural influences altered scriptural exegesis of Lurianic Kabbala in its philosophical, hermeneutical, and historical perspectives. He suggests that Luria and his followers were far from cloistered. They used their considerable skills to weigh in on important matters of the day, offering, at times, some surprising solutions to perennial theological problems.

Living in turbulent 14th-century Italy, Catherine was driven to submit her will completely to God's will for her. Catherine's life of total prayer has long inspired admiration. "On Friendship, with its total of one hundred sayings, is the perfect gift for friends." Feng Yingjing, renowned scholar and civic official, 1601 Matteo Ricci (1552-1610) is best known as the Italian Jesuit missionary who brought Christianity to China. In this book, philosopher Paul Brunton (1898-1981) encounters the mysteries and magic of Egypt in the 1930s, including an eerie yet illuminating night spent alone inside the Great Pyramid. Alongside his explorations of ancient Egypt's monuments and gods, Brunton encounters a variety of occultists, fakirs, and dervishes, and even manages to become initiated into the deadly art of snake charming. His frank interviews with Muslim leaders remain relevant today, and his description of the Hajj reflects the beauty and inspiring faith of Mohammad's true followers. Brunton's journey to discover the furthest reaches of what the mind and body are capable of--and to distinguish various forms of yoga and magic from true spirituality--lead him to the myth of Osiris and to the mystery that is the Sphinx itself. In the end, Brunton turns his attention to his own spiritual path, connecting all of his experiences into a single discovery: that we are more than the body and that the freedom of our spirit can be experienced here and now. This new edition has been updated to incorporate Brunton's final revisions and includes an introduction by the Paul Brunton Philosophic Foundation. "Paul Brunton was a great original and got to a place of personal evolution that illumines the pathways of a future humanity." --Jean Houston, author of *A Passion for the Possible* and *A Mythic Life* "Any serious man or woman in search of spiritual ideas will find a surprising challenge and an authentic source of inspiration and intellectual nourishment in the writings of Paul Brunton."--Jacob Needleman, author of *What is God?*

In this groundbreaking work that sets apart fact and legend, authors Finkelstein and Silberman use significant archeological discoveries to provide historical information about biblical Israel and its neighbors. In this iconoclastic and provocative work, leading scholars Israel Finkelstein and Neil Asher Silberman draw on recent archaeological research to present a dramatically revised portrait of ancient Israel and its neighbors. They argue that crucial evidence (or a telling lack of evidence) at digs in Israel, Egypt, Jordan, and Lebanon suggests that many of the most famous stories in the Bible—the wanderings of the patriarchs, the Exodus from Egypt, Joshua's conquest of Canaan, and David and Solomon's vast empire—reflect the world of the later authors rather than actual historical facts. Challenging the fundamentalist readings of the scriptures and marshaling the latest archaeological evidence to support its new vision of ancient Israel, *The Bible Unearthed* offers a fascinating and controversial perspective on when and why the Bible was written and why it possesses such great spiritual and emotional power today. The Old Testament, and biblical scholarship itself, distinguishes between mythical and historical. This book argues that only historical thing in the Bible is the Bible itself, a superb product of Jewish thought. What is narrated in the Bible is only myth. But this myth about Israel's past was still built with fragments of history, or rather with written traditions that were different from those expressed in the actual text, and obviously more ancient. These essays follow in the spirit of his controversial *History and Ideology in Ancient Israel*, which combine detailed philological research, a wide knowledge of ancient Near Eastern literature and Biblical Archaeology--and a radical way of understanding what the biblical text is really telling us. This is an erudite and thought-provoking book, which should not be ignored by anyone who finds the origin of the Bible a fascinating and still largely unknown phenomenon. Translated by E. M. Macierowski Originally published in French, de Lubac's four-volume study of the history of exegesis and theology is one of the most significant works of biblical studies to appear in modern times. Still as relevant and luminous as when it first appeared, the series offers a key resource for the renewal of biblical interpretation along the lines suggested by the Second Vatican Council in *Dei Verbum*. This second volume, now available for the first time in English, will fuel the currently growing interest in the history and Christian meaning of exegesis.

"I am persuaded," said Claude Bernard, "that the day will come, when the man of science, the philosopher and the poet will all understand each other." Whatever we may think of this prophecy, we most of us feel that the one-sided absolutism of the past, whether religious or scientific, is no longer possible. The inevitable vehemence of the reaction against bigotry and superstition has, in a measure, spent itself, and the best minds of the present, influenced by the spirit of Socrates' claim to wisdom, are cautiously and tentatively feeling their way to a nicer adjustment of the scales of thought. 'Rewriting' is one of the most crucial but at the same time one of the most elusive concepts of literary scholarship. In order to contribute to a further reassessment of such a notion, this volume investigates a wide range of medieval and early modern literary transformations, especially focusing on texts (and contexts) of Italian and French Renaissance literature. The first section of the

book, "Rewriting", gathers essays which examine medieval and early modern rewritings while also pointing out the theoretical implications raised by such texts. The second part, "Rewritings in Early Modern Literature", collects contributions which account for different practices of rewriting in the Italian and French Renaissance, for instance by analysing dynamics of repetition and duplication, verbatim reproduction and free reworking, textual production and authorial self-fashioning, alterity and identity, replication and multiplication. The volume strives at shedding light on the complexity of the relationship between early modern and ancient literature, perfectly summed up in the motto written by Pietro Aretino in a letter to his friend the painter Giulio Romano in 1542: "Essere modernamente antichi e anticamente moderni".

With over a million copies sold, this classic work is essential reading for all who ask, "Where has my struggle led me?" A chance encounter with a reproduction of Rembrandt's *The Return of the Prodigal Son* catapulted Henri Nouwen on an unforgettable spiritual adventure. Here he shares the deeply personal and resonant meditation that led him to discover the place within where God has chosen to dwell. As Nouwen reflects on Rembrandt's painting in light of his own life journey, he evokes a powerful drama of the classic parable in a rich, captivating way that is sure to reverberate in the hearts of readers. Nouwen probes the several movements of the parable: the younger son's return, the father's restoration of sonship, the elder son's resentfulness, and the father's compassion. The themes of homecoming, affirmation, and reconciliation will be newly discovered by all who have known loneliness, dejection, jealousy, or anger. The challenge to love as God loves, and to be loved as God's beloved, will be seen as the ultimate revelation of the parable known to Christians throughout time, and is here represented with a vigor and power fresh for our times.

Laudato Si 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.
