A master story-teller, Dr. Jose A. Cardenas, offers us an insider's view of the 28-year history of school finance in Texas. Dr. Cardenas is the founder & director emeritus of IDRA & is the only person who has been actively involved in the entire school finance reform effort since the early days of the RODRIGUEZ VS. SAN ANTONIO ISD litigation when he was superintendent of the Edgewood Independent School District. More than a history, this book provides a blueprint for persons interested in bringing about future reform in schools & other social institutions. Beginning with a description of the Texas system in 1950, the account covers court cases, legislation, & advocacy efforts & concludes with the status & future of school finance reform. Personal vignettes sprinkled throughout offer glimpses of those special untold moments that impacted history. Much of this volume - including the myths of school finance & lessons learned - relate to reform efforts in other states as well. Dr. James A. Kelly, president of the National Board of Professional Teaching Standards, provides a foreword, "Fighting the Good Fight," describing Dr. Cardenas as a trailblazer & pioneer. David Kirby here sets out the fascinating history of this northern country, for centuries on the east-west divide of Europe, a country not blessed by nature, most of whose inhabitants still earned a living from farming fifty years ago, but which today is one of the most prosperous members of the European Union. He shows how this small country was able not only to survive in peace and war but also to preserve and develop its own highly distinctive identity, neither Scandinavian nor Eastern European. He traces the evolution of the idea of a Finnish national state, from the long centuries as part of the Swedish realm, through self-government within the Russian Empire, and into the stormy and tragic birth of the independent state in the twentieth century.
