To help make Word more user-friendly, she explains how to change the default font and paragraph settings, customize the Ribbon and the Quick Access Toolbar, and use time-saving features like keyboard shortcuts, field codes, and Quick Parts. She demystifies everyday features such as line spacing, before and after spacing, headers and footers, page numbering, and automatic paragraph numbering. In addition, she focuses on legal-specific tasks: aligning text with pleading line numbers; creating, generating, and troubleshooting a Table of Contents and a Table of Authorities; using Track Changes; and comparing documents (redlining).
