

Nova Scotia Ottawa And The Politics Of Regional Development

This sixth edition of the Nova Scotia Atlas provides in-depth coverage of the entire province unavailable anywhere else. The maps include numbered and colour-coded highways with exit numbers, hiking trails and national parks. There are details such as power lines, ferry routes, hospitals and communication towers. Airports, helipads and landing strips are mapped. Also included are all provincial parks (campgrounds, picnic sites, boat launches), with a text description of each. The maps clearly show physical features, including rivers, lakes, hills, islands, marshes and beaches. The revisions in this new edition include all new highway construction completed in the past five years, three new wilderness areas and six new nature reserves. Waterfalls are now shown, and Crown land information has been extensively updated. All paved and unpaved roads (longer than 200 m) are included, as are a myriad of protected areas including game sanctuaries, wilderness and wildlife management areas. County and municipal boundaries are shown.

Ottawa and the Outer Provinces treats a perennial theme in Canadian political culture, examining it in light of both past successes and failures.

Annotation. Fully colour-illustrated travel guides packed with information on the history and culture of a destination.

Syllables of Recorded Time is a lively look at the development over the last six decades of a national authors' association, with all its problems and foibles. Personalities such as Bliss Carman, Nellie McClung, Stephen Leacock, B.K. Sandwell, W.A. Deacon, Mazo de la Roche, John Murray Gibbon, Helen Chreighton, Watson Kirkconnell, Charles G.D. Roberts and Duncan Campbell Scott figure prominently in the amusing anecdotes of the early days, and Hugh MacLennan, Pierre Berton, Dorothy Livesay and Arthur Hailey in the later years. Syllables of Recorded Time highlights the discussions and legalities regarding issues of copyright, contracts, women's role, cultural domination by Britain and the U.S.A., government funding and markets for writers. It tells why there was a spinoff of specialized interests including the Canadian Writers' Foundation, the League of Poets, the Governor General's Awards, the Canadian Copyright Institute, the Canadian Society of Children's Authors, Illustrators and Performers and the Writers' Union of Canada. Harrington vividly portrays all facets of the organization in this valuable resource book.

Explains how to use important genealogical records from such areas as Latin America, the Caribbean, the thirteen original colonies, and Canada

Arguing that the complexity of policy-making in the forest sector has led many analysts to focus exclusively on specific sectoral activities or jurisdictions, this collection of essays offers a simplifying framework of analysis.

Beginning with brief accounts of the origins of Confederation and the economic, social, and political characteristics of late nineteenth-century Canada, Stevenson recounts the major issues that occupied the intergovernmental agenda. Liquor regulation in Ontario, land reform in Prince Edward Island, reluctant acceptance of Confederation in Nova Scotia, chronic financial problems in Quebec, controversy over Catholic schools in New Brunswick, and the roots of Western alienation in Manitoba and British Columbia are all described in detail. Stevenson then examines the process of intergovernmental relations and the significance of particular practices and institutions such as disallowance, reservation, federal-provincial conferences, and judicial review. In the final chapter he summarizes the evolution of Canadian federalism up to 1896 and briefly relates it to the current state of Canadian federalism. Based on extensive archival research, this book will interest political scientists, historians, and anyone curious to know the background of Canada's federal crisis.

Wilks provides a historical background, list of publications, and description of activities for most of the major science initiatives undertaken at the federal level. He surveys a wide range of government documents and monographic and serial science collections used by both faculty and students.

Wayne O'Leary provides detailed descriptions of how the schooners were conceived and perfected, and paints a vivid picture of life on Tancook from the late eighteenth century into the twentieth century. He shows how national and international developments affected the lives of the Tancook Islanders and the character and uses of the vessel for which they became famous. He also includes many stories about individual builders and a wealth of photographs and drawings. The Tancook Schooners will be of interest to maritime enthusiasts as well as maritime, economic, and social historians.

Transforming Provincial Politics is the first province-by-province analysis of politics and political economy in more than a decade, and the first to directly examine the turn to neoliberal policies at the provincial and territorial level and examines how neoliberal policies have affected politics in each jurisdiction in Canada.

NAMED A BOOK OF THE YEAR BY THE ECONOMIST AND ONE OF THE BEST BOOKS OF 2021 BY THE TIMES AND THE SUNDAY TIMES "Irreversible Damage . . . has caused a storm. Abigail Shrier, a Wall Street Journal writer, does something simple yet devastating: she rigorously lays out the facts." —Janice Turner, The Times of London Until just a few years ago, gender dysphoria—severe discomfort in one's biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as "transgender." These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans "influencers." Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and "gender-affirming" educators and therapists who push life-changing interventions on young girls—including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. Abigail Shrier, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to "detransitioners"—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls' social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their daughters. A generation of girls is at risk. Abigail Shrier's essential book will help you understand what the trans craze is and how you can inoculate your child against it—or how to retrieve her from this dangerous path.

Argues that the popular conception of Nova Scotians as a pure, simple, idyllic people is false. This title shows how the province's tourism industry and cultural producers manipulated and refashioned the cultural identity of the region and its people to project traditional folk values. It examines how Nova Scotia's cultural history was rewritten.
