Assessment is an important part of effective teaching and learning. It allows achievements to be recognized and helps both teachers and learners to reflect on and review their performance and progress. While assessment has long been an end-of-learning activity to measure what learners can do, the outcome-oriented approach does not always foster learning motivation effectively. A new perspective now encourages ongoing appraisal in the classroom to improve learning. This book reflects current thinking of assessment with a stated focus on assessment for learning (AfL). It informs teachers about the latest developments and provides teachers with important tools for integrating assessment in the classroom. The discussions on assessment theories are in-depth and the examples used for illustrating the concepts are plentiful.

The Basics of American Government is a collaborative effort among eight current and one former faculty members in the Departments of Political Science and Criminal Justice at University of North Georgia. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government. Furthermore, the work combines the best aspects of both a traditional textbook and a reader in that most chapters offer a piece of original scholarship as a case study to bolster or reinforce the material presented in the chapter. In addition, many chapters present a civic engagement-type exercise and discussion questions intended to challenge, engage, and foster student participation in the political system. The authors undertook this project for several reasons, most notably the high costs of textbooks for students and the lack of college-level scholarship found in most American Government texts. This 375-page, peer-reviewed, edited book that combines traditional material with original scholarship will cost students \$27.99, well below market standards. All of the authors are experienced classroom instructors, subject matter experts, and published researchers in the field of American politics.
