This comprehensive guide uses a case-study approach to teach consultants how to deliver fast and successful SAP SRM implementations.The book is based on SAP SRM 2007 and SAP SRM 5.0, but is also compatible with version 4.0. Explore the problems faced by consultants during an implementation from the perspective of the transitioning roles assumed over the course of the project. Beginning with your role as a business consultant in the blueprint phase, the book progresses through to your role as a techno-functional expert during the realization stage. This approach helps you anticipate challenges and gives you the tools to handle them. Going beyond the standard SAP SRM scenarios, this book gives you practical tips for enabling complex customer requirements by leveraging SAP NetWeaver and SAP Business Suite applications. You can also use this reference as a troubleshooting guide to quickly resolve potentially costly implementation challenges. If you need practical direction for your SAP SRM implementation, then this book is ideal for you. How can SAP S/4 HANA and a set of complementing systems help an organisation close

the books faster? This book is meant for technology strategists, solution architects, project managers, SAP finance consultants, finance practitioners, and IT consultants. The financial closing process is a behemoth of a process, and it creates enormous strain on the resources of an organisation. There is a significant responsibility on each of the different departments like business, finance, information technology and any service partners to plan, orchestrate and execute the activities required for periodic financial closing. However, such a process can be significantly automated using SAP systems like S/4 HANA Finance and Group Reporting, Disclosure Management, Analytics Cloud. There are intelligent tools provided such as SAP Financial Closing Cockpit, Advanced Financial Close and partner solutions like Blackline Account Substantiation and Automation that can monitor and orchestrate part or whole of the closing process. Originally published: The new SAP blue book. c2006. Invoice verification is an important business process in almost every company. In SAP you can verify invoices against purchase orders and goods receipts. SAP provides important functionalities like automatic account determination, financial posting, etc. SAP is powerful software that can meet the needs of any business scenario for any type of business in any part of the world. Its all encompassing nature makes SAP complex. In order to derive maximum benefit for business, SAP must be understood well. Mr. Agrawal attempts to explain SAP completely; a seemingly impossible task. This is his third book on the Materials Management module; his first two books in the Materials Management module are 'Purchasing' and 'Inventory Management'. In this book, like in his earlier books, he explains every screen of SAP MM Invoice Verification. Both the SAP Menu and Customizing Implementation Guide are expanded and the chapter number where they are covered is indicated. This not only creates a direct link between

the book and the SAP software, but also ensures that the book is comprehensive. The author has taken care to balance details with overviews that explain linkages between concepts. The book is organized in chapters that are important business activities. Each chapter covers business processes carried out in SAP by the user as well as its related configuration. This book can be used to learn SAP from scratch; it is a learning guide. It is, therefore, useful to persons who are training to be SAP Consultants. Having learnt SAP with the help of this book, the Consultant keeps returning to refer to it. In implementation of SAP, Consultants prepare User Manual. With the availability of this book, their task becomes simpler. In the User Manual, they need to cover only implementation specific points. The user refers to this book as a generic User Manual. As the user gains knowledge he also begins to understand the customizing settings for his implementation. This book can also be used by Business Process Owners and Senior Managers to get an overview of SAP and the important choices it offers.

This book explains all the concepts underpinning the Organizational Management (OM), Personnel Development (PD) and Training and Event Management modules of SAP HR. It is a comprehensive technical manual which explains every single node of the User Menu and the Configuration. The book first gives an overview of a concept explaining what it is, how it is used and how it relates to the other concepts. It then explains its properties, which are fields in a configuration node. This book is designed to be used both as a reference manual and a learning guide. As a learning guide, it offers four views, each for a different target audience. It can be read from the Senior Management s perspective

to gain a broad understanding of the subject and what SAP can do for them. Business Process Owners can achieve a higher level of understanding by getting to know more of SAP concepts and how to perform different tasks in SAP. Users can acquire a thorough understanding of different tasks and concepts underlying them. Functional consultants and proficient users can read the book to gain a complete understanding of the system. As a technical reference, the book can be used to locate the relevant material through the Table of Contents, Index, SAP Menu and SAP Customizing Implementation Guide (IMG) . The last two follow the Table of Contents. If the reader is in SAP s User Menu or Configuration, the chapter number for these nodes can be found in SAP Menu and IMG . If a node is not covered in the book, the reason for not doing so is mentioned. The implementation of SAP HR OM, PD and Training can also be guided by the structure of this book.
