An insidious parasite is working its way through the suburbs of Washington, D.C. NITS follows the trail of a virulent outbreak of head lice as it wreaks havoc on the lives of a social climbing mother of a scholarship student, a buff young Latin teacher and a controlling do-gooder who is so consumed with exterminating the pest, people start calling her the "Lice Nazi." A social satire with bite, NITS explores the themes of class, ambition, and the unavoidable interconnectedness of modern life.

In a world where the future is increasingly uncertain, it's easy to wallow in what-ifs. But over time, anxiety and worry can get in the way of living a full and meaningful life. In this fun, illustrated workbook, psychologist Jennifer Shannon presents a thirty-day anxiety-busting workout to help readers outsmart their anxious "monkey mind" and build the mental muscle it takes to face uncertainty with calm confidence!

Mental health is . . . being yourself. A prescriptive and positive guide, illustrated with line drawings, making the case that mental well-being, like physical health, can be strengthened over time and with specific techniques We all want to feel

less anxiety, guilt, anger and sadness. We want to obsess less and be less lonely, free ourselves from our demons, compulsive habits, and stress. But as humans (unlike rocks) we experience all of these. And paradoxically, trying to avoid and control them only makes things worse. Having struggled with serious mental illness for many years himself, Mark Freeman has become a dedicated mental-health advocate and coach. He makes the case that instead of trying to feel less and avoid pain and stress, we need to build emotional fitness, especially our capacity for strength, balance and focus. With wit, compassion, and depth of experience and anecdotes, he shows that we can recover from many mental disorders, from mild to very serious, at all ages and stages of life, and even if other methods have failed. Freeman's innovative approach makes use of a range of therapeutic techniques, mindfulness training, peer support, humor, and common sense.

KINDLE BOOK REVIEW, 2014 KINDLE BOOK AWARDS SEMIFINALIST Out of Mind, Out of Sight is a revealing history of the Florida State Hospital at Chattahoochee from construction of its original buildings in 1834 as part of the Chattahoochee Federal Arsenal during the Second Seminole War, to its current role-treating individuals who have been civilly and forensically committed. To put the Florida State Hospital at Chattahoochee in perspective, the story is set against a backdrop of the evolution of institutionalized mental health care both in the U.S. and Florida where new emerging treatments-insulin, Metrozol and electroconvulsive (ECT) shock therapies, as well as lobotomies-became part of patient treatment plans. For years, the Florida State Hospital at Chattahoochee had quite a reputation-most of it bad; but, the institution was not alone. For decades throughout the country, state facilities earned shocking reputations for their inadequate care and mistreatment of the mentally ill. Even more chilling was the incarceration of thousands of men and women who were not mentally ill at all, but due to ignorance and prejudice on the part of the public, medical profession, and court system, were confined for epilepsy, sunbathing nude, smoking, menopause or other "egregious" offenses. Some may wonder why an account of

the obscure facility at Chattahoochee is important. The answer lies in its dual role as historic physical facility and evolving mental institution that, when combined, paint a poignant portrait of Florida-its history, its laws and its people; and it is incumbent upon historians to preserve this picture-the good, the bad, and the ugly-for generations to come.

discipline, the book goes into short obtainable steps in a day by day fashion to help you focus, commit and achieve in only 1 month! What is self-discipline? What does it mean to lack it? Why do you think you're not as disciplined as you would like? Is it because you manage your time poorly? You lack organizational skills? You lack motivation? Procrastination is your greatest enemy? You're just too lazy? What many people don't realize is that all of these issues, which they see as causes of poor self-discipline, are actually symptoms. Are you confronting one or more of them? If you're contemplating purchasing the book, then you've decided it's time for a change of significant proportions, a change that might take only 30 days to implement, but that will last you for a lifetime. Your conviction is admirable, but to undergo such a change, you must first understand what self-discipline is and what it is not. Self-discipline is not: A personality trait that some people have and others don't. Using willpower to force yourself into action. On the contrary, self-discipline is: A skill that anyone can learn and train. becoming aware of your conscious or subconscious resistance to action and using different techniques to overcome, but not to crush that resistance. As you go through this life-changing 30 days challenge, remember that what you are doing is exercising your willpower muscle for the long run. Good luck!

We hear about inadequate mental health care. We ask questions regarding a link between

mental illness and violence. We do NOT hear as much about the stigma of mental illness that complicates one's ability to cope with a diagnosis that becomes a label, resulting in "self-stigma," discouraging individuals from seeking and/or complying with treatment. Too often community members only "experience" mental illness through dramatic or dire media stories that fail to inform us about the real world of mental illness. Thus, stigma feeds, and is fed by, myths and misunderstandings leading to a community sense of hopelessness and fear of mental illness. In contrast, Geel, a stigma-free community in Belgium, has a centuries' old history of accepting those with mental illness - even as boarders in their own homes. Geel acknowledges the human needs of those with mental illness and responds to those needs by providing social opportunities and meaningful work, within the community While the U.S. does not have the same history as Geel, we do have programs that offer a fostering environment, offering hope for those with a diagnosis of mental illness as well as for the communities in which they live. In a language and style that can be understood by anyone and everyone, the author shares what she's learned and experienced regarding tolerance and inclusion - in Geel and in our own country - offering individuals and communities an opportunity to hear the encouraging "voices of hope for mental illness." When the general population is freed of myths and misunderstandings regarding mental illness, we can focus on mental health fostered by community care that thrives in "caring communities."

Mind Your Thoughts is a book that will help you quiet and focus your thoughts so you speak directly to your unconscious state of being in a language the mind understands. Meditation is nothing more than relaxation, and in a meditative state, your conscious can relax and allow you to speak directly to the unconscious. The unconscious is in charge of your life, even though

you allow your conscious to be in control. If you want to experience change in your life, you need to learn to bypass the conscious control which can be described as critical, analytical, and most of all judgmental. Meditating through relaxation is how you reprogram your unconscious with new concepts and information. The unconscious learns by applying this information against the storage of all your memories, experiences, reactions, and emotions. Also, the unconscious is much more accepting of change because it processes information without judgment. You will see both mental and physical changes resulting from this process. Practice with the thoughts in this book; your unconscious will understand even if your conscious seems confused. Mind your thoughts and experience a human metamorphosis from the inside out. The purpose of meditation is to quiet the mind. Meditation removes the clutter of thoughts from everyday life, and also helps you to get in touch with your higher consciousness. It does take practice, so do not become discouraged. Set aside 45 minutes each evening before you go to sleep. Sit in a quiet room, in a comfortable and relaxed position wearing loose clothing. Close your eyes and take a deep breath in through your nose and let it out slowly through your mouth. With each breath in, clear your mind of all thoughts, and feel your body relax. Repeat this 9 times before beginning. This book contains 81 thoughts for you to meditate on. There are 9 sets of 9 thoughts each. Start with Set One and allow 5 minutes of meditation for each thought. After your initial warm up of 9 deep breaths, read the first thought of the first set. Close your eyes and continue your deep breathing as you reflect on the thought and what it may mean to you and your life. Think of nothing else. Repeat this with each thought until you complete Set One. It will take you at least 9 evenings to get through all of the sets in the book. You may want to repeat a set over and over again before moving on to the next set.

Eventually, you will have your favorite thoughts that you will want to dedicate your meditations on. Most people enjoy thoughts of wisdom, but rarely take the time to internalize them enough to be life changing. Practice mindfulness in life and create ripples that will forever change your life. This is not an instructional book on the art of meditation.

Life is created by a series of events. If you can find some way to pull 20 extra minutes out of your life, you'd better use them wisely. Where will you discover this time, and when you find this time, how will you use it? Just 20 minutes a day will convert into a powerful 121 hours a year. That is a huge piece of time that you can use to gain new capacities and expand. The advantage is seen when we make a day by day decision and submit those 20 minutes to something beneficial. You can awaken 20 minutes before, take 20 minutes from lunch, after work, or just before bed - the decision is totally up to you. Just do it! Remove all excuses and distractions. Imagine if you just use 20 minutes a day to create a spark for your business. That small spark can turn into a major flame! How do you create this spark for your business? It's through promotion. Promotion isn't something that ought to be done randomly, just when you think you have sufficient energy to do it. Honestly, as an entrepreneur who's always busy, you're never going to have room schedule-wise. Consequently, you need to make time for what's important. This implies doing something intentional each and every day. Before you think you don't have room schedule-wise to do that, reconsider. Showcasing doesn't need to be hours of your day. Instead, it's something you can do in as little time as 20 minutes a day. This encomium is a thoughtful and respectful, compression of the one and only, Holy bible. Compiled in an attempt to enlighten those who get lost reading the lengthy, but all-important, Word of God; but most importantly, this book conveys the coveted dream of our Almighty God.

Day to day stressors like traffic, the mean lady at the gas station with the bad breath that I had to see every morning, and the long hours put in at work, were enough to drain me. My boss, with his long nose hair, breathing down my neck about my productivity level was enough to deplete a person every day. "What do I do? What will happen next? What if, what if, what if...?" You are living in a box. It's a nice comfortable box perhaps, with lots of windows. You can see other people, earning more than you, driving better cars than you, healthier than you, happier than you and it appears that they are just lucky, or have been privileged somehow. There are lots of reasons you think or believe they are doing better than you, but none of those reasons are correct. Only one reason is correct. They live in a different box. All of us live in boxes created by our minds that have been built to protect us and those boxes tell us where the edges of our reality are, the edges of our expectations. Good news; You CREATED the box. That means you can break it and remake it any way you want. You can expand the edges of your reality and attract bigger and better things for you and your family. But now, the 12-Steps are given the complete update they've needed to be effective in our more complex culture. By filling in the missing parts, the 12-Steps are both destroyed and made even stronger at the same time. Questions are answered and the entire cycle of addiction can finally be understood. The Anti-12 Steps illustrate what the 12-Steps really are and what they really do.

In Stop Sabotaging Your Life: 3 Steps To Your Full Potential, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional

independence. How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything that ails you. As he says, "There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether." What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: "As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that.”— Cristina “The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential.” —Adrian “If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise,

In this revised and expanded edition of Bloodball, J. G. Van Tine probes the mind-set that dominates media sport. By uncovering covert games, tactics and payoffs, he redefines the hero worship that vaunts a tiny minority while luring the majority into conflicted passivity. As the sporting audience rarely glimpses those who run the corporations and own the teams, Bloodball attempts to ease this relation by revealing how and why the media disguise corporate control and power plays, among them the History Fob, Getting Wa-Wa, Branding, and Your Heart Belongs to Daddy.

Conversations will help start you on the path to a new life.

Success is measured not by the size of your brain, but rather by the size of your thinking. This intrigues a lot of people, and if you observe how people behave, you will have a clear understanding of what success really means. Time and time again, history and experience have proved that the degree of our general satisfaction and happiness is dependent on how we think. There is magic in thinking big! Positive thinking helps accomplish so much in our life, but unfortunately not everyone thinks that way. We are all products of our thinking that goes within and around us. There is an environment around us that exerts all sorts of forces on your thinking; some will push you up the ladder while others will pull you down. We have been told many times that opportunities to lead are no longer there; hence we should be content with who we are without having positive aspirations on leadership. The petty environment surrounding us also has its own narrative concerning our lives. It constantly tells us that whatever is destined will eventually happen and we have no control over it. Leaving your fate in the hands of chance can potentially ruin your life and make you miserable. Therefore, before you start giving up your dreams of a finer home or giving a better life for your children, stand firm and resist resigning to fate. Do not lie down and wait to die. Success is worth every effort you expend, and every step you

make pays a dividend. Even in an environment where competition is intense, you still can succeed as long as your thinking is in the positive quadrant of your mind frame. The basic concepts and principles that underlie the power of thinking big are drawn from the highest-pedigree sources and the finest thinking minds such as Emerson who said "Great men are those who see that thoughts rule the world." Milton who wrote in his book Paradise Lost, "The mind is its own place and in itself can make a heaven of hell or a hell of heaven." Shakespeare made an interesting observation about thinking which he summarized and said "There is nothing either good or bad except that thinking makes it so." Proof is everywhere that thinking big indeed works. When you look at the lives of people who you consider as big thinkers, you will be amazed at their winning success, happiness and achievements. This book will show you proven strategies from different life situations that will turn your life around.
