From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most

dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

? Marty Mann and Nellie Dixon are back for another irreverent, liberal, twisty, time travel comedy! This time they have Noah's Ark and Ronald Reagan in their sights. Where would you go on a time travel vacation? At the conclusion of their last episode, Marty Mann and Nellie Dixon were on Starship Blue, about to depart for the planet Krichardia, some forty light-years away. Knowing that they would likely never return to Earth again, their Krichard lovers, Chrissie and Tina, arranged for them to abscond with the Chromosphere Cruiser for up to twenty seconds. During that time, Marty and Nellie could do whatever they wanted as a way to say goodbye to Earth. Days, weeks, or even months might pass for them, but as long as their final time jump delivered them back into Starship Blue's cruiser bay within twenty seconds of their departure, Captain Jagger and the rest of the Krichard crew would never know they were gone. In this episode, our snarky heroes embark on that time travel vacation. Those trips will hurl them into an enlightening adventure that spans from 3000 BC to AD 10,000. They'll discover the truth behind Noah's Ark, encounter the Cult of the Holy Smokin' Hot Nellie, pilfer a bass from a young Geddy Lee, and be taken prisoner by people in the future with just one demand: Kill Ronald Reagan! Time Is Irreverent 3: Gone for 16 Seconds is a hilarious, thought-provoking satire with unpredictable twists, an unconventional Jesus, an unwitting Ronald Reagan, and an unabashed look at Earth's past and future! Publisher's Warning: This book is intended for a liberal audience and features satirical content that may not be appropriate for Donald Trump supporters or those who are offended by views that challenge traditional religious beliefs. Common side effects include wide smiles, sudden laughter, and occasional snorts. Reader discretion is advised. This is the third book in the Time Is Irreverent series. Each novel is a stand-alone adventure, and a humorous prologue quickly gets readers up-to-date.

Oi Amigo! Experience the amazing mighty Amazon! It's the steamy setting for this colourful South American tale of an old family company dealing in jungle medicinal plants. The venerable firm is corrupted by lust, corporate greed, gratuitous affluence, shady characters, and duplicitous transactions. Genetic tinkering and environmental destruction run amuck amidst the grinding subsistence life of the Amazon natives. Rune Erikson is cast as the altruistic hero as he comes to the rescue of a statuesque Brazilian heiress brutally targeted during a medical conference in Victoria. Hiding her aboard the Valhalla, Rune is love-struck. Hitching a ride with her on Dredmann Industries corporate jet, it delivers them unto the evil Dr. Manglar. Bianca Penthesilia Monteiro fights back against Gunther Dredmann, known by his victims as Dr. Death, when her family's business is ruthlessly subjected to a hostile takeover. Fast Eddie, an old buddy of Rune's who has fallen into the bottle, teams up to help with his Grumman Goose flying boat. An ancient family enigma is revealed when a five-hundred-year-old Portuguese leather trunk is opened. A wizened soothsayer casts his cryptic prophecies as a centuries-old Portuguese sword comes scything down in an old Brazilian prison,

sparkling primeval powers in its possessor. This intriguing fourth novel in a series features the somewhat jaded but dashing Rune Erikson who slogs through the piranha-infested Amazon with his Grumman Goose flying buddy, Fast Eddie, in a torturous survival trek. Rune and his Brazilian heiress babe are caught up in a sinister plot of unimaginable consequences. Coloured by romance and spiced with eroticism, this adventure lures Rune off his sailing ketch, Valhalla, in Victoria's Fisherman's Wharf into the enticing arms of a young, hot-blooded Latin American woman whose powerful matriarchal lineage is unknowingly steeped in the ancient myths and secret sagas of the steamy Amazon.
